Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant must amend the claims to overcome the 112 second paragraph since it is not clear if "the cell" is the same ASA deficient cell in claims 1b, 2b, and 5(b). Further, it is not clear how exposing "the cell", assuming it is the ASA deficient cell, to a chemtherapeutic agent for a time sufficient time to induce apoptosis in "a cell" exhibiting normal acid sphingomyelinase activity, assuming it is a cell other than ASA deficient cell (claim 1(b) and (c). The Examiner will reconsider the 103(a) rejections in light of the amendment to the claims and the references cited by the Examiner and the two references cited on 1449 filed 12/9/02 .
